

E.S.M.O Pty Ltd (Elite Sports Mentoring Officer) is a proudly Indigenous-led organisation focused on bridging the gap between professional sports experience and youth development through structured mentoring programs. Our unique model embeds elite athletes into the school system in advisory and mentoring roles, optimising the time students spend with counsellors and support staff. We combine lived experience, cultural understanding, and elite-level discipline to inspire the next generation – empowering youth through sport, leadership, mental health support, and personal growth.
